Welcome! To get started in the system we need to make sure we have accurate information for you on file, and to make your log in process both simple and convenient. To accomplish this you will need to:

1. Enter your personal information
2. Accept the enrollment agreement

On this page you will enter your personal information. Please review the information in the space below. You **MUST** complete the fields with * in front of them. Please include valid contact information for assistance with enrollment process.

Personal Information:

* Required Fields.

*Group Code:

*First Name:

*Last Name:

*Date of Birth:
This will be used for verification purposes only.

*E-mail Address:
You will use your e-mail address as your login id.

*Password:

*Confirm Password:

18. Review General Instructions page and click on Take Test

<input checked="" type="checkbox"/> Test	<input type="checkbox"/> Take Test	<input type="checkbox"/> Personal Page
--	------------------------------------	--

General Instructions for Taking Tests

You have chosen to begin the test on:

Clinical Updates: Promoting Safety in Blood Transfusions

There are 9 questions in this test. Be sure you have enough time to complete all questions before you continue. If you exit the test before clicking **Submit Test**, your answers to the questions will not be saved. If you leave some questions blank and click **Submit Test**, any unanswered questions will be scored as incorrect.

Tests may include case studies, true/false, and multiple choice questions, including single or multiple answer. Your test score is the percentage of questions answered correctly out of the total.

If you are ready to begin, click **Take Test** in the menu bar above.

You have the option to take this test later. If you would rather take this test later, click **Personal Page** in the menu bar above to return to your list of assigned lessons.

After you achieve a passing score for this test, you must click **Evaluation** to complete and submit an evaluation of the activity if this option is available with this product. Once you submit the evaluation form, you will have access to your certificate.

19. Complete the test, and click Submit Test at header or end of

The screenshot shows the MNC test interface. At the top, there is a header with a green checkmark icon and the word 'Test'. Below the header, there is a section titled 'Instructions' with two numbered instructions: 1. Select the correct answer(s) for each test question. Scroll to view additional questions. 2. Once you answer all the test questions. Click **Submit Test** to view and transmit your results. Below the instructions, there is a question: 1. The nurse is preparing to administer blood products to the patient. Before administration, which products must be ABO/Rh compatible? The options are: A. Red blood cells (RBC), B. Whole blood, C. Fresh frozen plasma, and D. Cryoprecipitate. A red arrow points from the 'Submit Test' button in the top right corner of the question area to a larger 'Submit Test' button in a separate box below.
